

DEPARTMENT OF ELECTRICAL ENGINEERING
School Of Engineering And Technology, BGSB University
Rajouri (J&K) – 185234

Ref. No. BGSBU/SOET/EE/22/298

Dated: 31-10-2022

Report on one Day
National Seminar on Advances in Control System

A national seminar on "Advances in Control System" was organized by the department of Electrical Engineering, School of Engineering and Technology, Baba Ghulam Shah Badshah University, Rajouri on 28th, October, 2022. Prof. Akbar Masood, Vice-Chancellor, Baba Ghulam Shah Badshah University applauded the department of Electrical Engineering for organizing the national seminar. Prof. Iqbal Parwez, Dean Academic Affairs congratulated the department for organizing the event. He urged upon the faculty members to come up with cutting edge research for the greater benefits of the society.

Dr. Shafqat Mughal (HoD Electrical) provided the welcome address and introduced the guest speaker. During his talk, He briefed the participants that there advances going on in control systems. Without control system no technology can survive. Moreover, Electrical control systems are required to monitor and adjust the full range of process variables to ensure the process runs in the most efficient and effective way

Dr. Nishat Anwar (Assistant Professor, NIT Patna) was the resource person of this event. In his presentation he discussed on the role control system to achieve automated process control. For this purpose, he told that Control systems utilize a variety of sensors to regulate industrial processes by linking them to control devices. For example, a temperature sensor can detect an abnormal process temperature and actuate a relay to shut down what may otherwise become overheated machinery. Faculty members and students from institutions within and outside the department actively participated in the event. The total number of participants were 40. At the end vote of thanks was presented by Dr. Ahmed Riyaz who was the coordinator of this seminar.
