REPORT ON NATURAL WATER CONSERVATION CAMPAIGN:

Date: 16 January 2018.

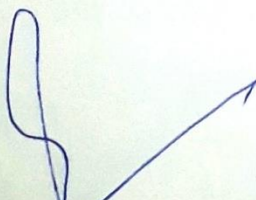

Time :11:00 am to 1:00 pm.

Centre for Hospitality and Tourism organized one day Awareness Campaign on Natural Water Conservation, with special emphasis on Rainwater Harvesting, Watershed Management and Water Purification.. Without water, life is not possible on the earth. We totally rely on water for public health and equitable progress. It is essential for food and energy security, and it underpins the functioning of industries. CHT members took the vow and have accepted the challenge to make the people, especially the community of Dhinore Rajouri, understand the importance of water conservation.

For this purpose, the Water Club Members visited schools across the area. They gave presentation of the different methods of water conservation with special reference to rainwater harvesting, watershed management & water purification. A quiz contest was also conducted in every school relating to different water issues in the society.

Director CHT Mr. AsrarGhaus interacted with the audience and threw light on the ways and means to save water. He stressed on the fact that the a proper study and research must be conducted before visiting a village, as every village has a different type of water need and that some villages have good water level and some don't. Hence, it is important to know beforehand the type of awareness to be spread.

Faculty members and students of CHT also interacted with the locals and awared them about the importance and ways of conservation of water.
