Faculty Feedback (2020 – 2021)

The university has made it a practice to conduct course coordination meetings twice a semester by all faculty members. These meetings were focused on qualitative improvement in course content, pedagogy, learning material, student's performance, research, and extension activities. Based on the feedback obtained from faculty during the teaching-learning process, a course teacher was empowered to revise the contents of the course after obtaining formal approval from the Chairman, Board of Studies.

Course Outcomes and Academic tasks are appropriately designed:

Learning outcomes shared expectations between students and instructors. It helps students to learn more effectively and focus their learning efforts. Faculty is satisfied with the designed course outcomes and the academic tasks to evaluate their achievement.

Breadth and depth of course content and academic resources prescribed in the syllabus
Faculty agreed that the curriculum focuses on the depth of understanding along with breadth of content coverage by providing students with numerous opportunities to practice and demonstrate their learning in a variety of contexts. Prescribed academic resources are helpful to involve students in achieving the desired outcomes of the course and make them comfortable with the courses.

Relevancy of course for placements in relevant industries & for competitive examination:

The majority of the respondents agreed that the course was relevant for placements and competitive examinations like GATE, UGC NET, GPAT, GMAT, etc. The faculty emphasized the importance of current affairs for evolving skills among students.

Distribution of syllabus contents and the learning from Academic Task:

The syllabus offers students a clear and concise statement of what their course is about. Faculty agreed on the distribution and placement of content in the syllabus and believe it is in logical order. Majority of teachers were satisfied with the level of learning from academic tasks such as assignments, class tests, quizzes, term paper, design problems, projects.

Live examples and Pedagogical strategies are appropriately used and delivered:

The live example discussed in the class increases students' interests and engagement. It helps to maintain the student's focus and get different perspectives on the topic. Active involvement of students in the class also improves critical and higher-order learning skills.

Live examples and Pedagogical strategies adopted are appropriately planned in IP. Faculty use them in the form of debate & discussion, brainstorming, case studies, PowerPoint presentations, videos, animations, simulations, etc.

Updating curriculum with Current Trends:

Majority of the faculty agreed upon that syllabus is updated with the current trends of Industry and Academia. Industry experts and academicians are often invited for expert talk and interaction with students. Their feedback and suggestions are incorporated regularly into the curriculum. Feedback was also sought from the recruiters during the placement drives to make the curriculum and students industry-ready.
